

Equipping pastors to abide in and feed their congregations from God's Word.

South Asia Report

In January 2019, Dr. Rick Calenberg completed his last trip for Romans Project. He met up with Dr. Abhi, founder and leader of Jireh Family, and together they held a two-day Romans Project conference with 21 pastors/leaders from 11 different states in South Asia, some traveling 36 hours to attend. Here is an excerpt from his newsletter:

“Dr. Abhi opened with an introduction to the Romans Project and to me. For the next 5 hours, we navigated through critical issues, including an overview of Romans, a very enlightening discussion on how Romans relates to the issues in South Asia and South Asian church life, the need for clear teaching and exposition of the Word. As the day went on, these pastors

opened up on many issues with which they were struggling, especially the issues of persecution and syncretism, a real problem in the highly spiritual environment of South Asian life and culture. But in the midst of all of the lively interaction was a firm commitment to the Word, a faith in the Lord who gave it, and an appreciation of what reading Romans 20 times and writing it had meant to them. »

In Their Own Words

It was a wonderful and blessed experience for me to be part of Romans Project. I could learn and understand much more about the message in this epistle. There were many areas where I could not understand what the passage really says about, but by the project, I could understand much of it. Especially the importance and power of the Gospel in this new generation. I came out with many questions, esp. in chapters 1, 2, 7, 10-11, but I could understand much about these chapters in the end. This course is a real encouragement for me in the area where I am working, especially the pagan religion and how to reach out where the deceptions and lies of Satan are and bring the Gospel in those areas. I will continue study of Romans, reading, writing, and meditating on it.
